LA PIZZA ITALIANA QUELLA BUONA

natural leavening - hand stretching - wood-fired oven baking

6 FASI DI LAVORAZIONE

PRODUCTION PROCESS

1 NATURAL LEAVENING FOR 24 HOURS

The dough is left to leave for 24h in a special cell using an exclusive technique that guarantees constant electronic control of temperature and humidity.

This procedure ensures: finer texture - lighter, more easily digestible dough - stronger flavour and fragrance - longer shelf life.

2 HAND KNEADING

One of the most distinctive features of the products: it ensures a higher rim, according to the best Italian pizza tradition.

3 BAKING

Wood-fired and gas oven, on refractory stone: 100% environment-friendly, automatically fed with certified and sanitised beech logs / Electric oven.

4 TOPPING

Only the best ingredients are selected for the toppings of our pizzas.
Carefully hand-topped pizzas by highly skilled staff, giving a touch of Italy to our products, making them unique in the name of tradition.

5 DEEP FREEZING AND PACKAGING

> Direct deepfreezing at -30°C - 4 packaging lines matching the best possible packaging solution following the sales channel.

6 PASSION

Passion is a fundamental phase of the production process. Every pizza is unique.
Every pizza is literally hand made and taken care of during the process. This is possible only thanks to the great dedication of our operators.
